

Apple Mail POP 3 Mail Account Setup

1. Click on "Mail" and then on "Add Account" to add a new email account

2. Select "Other Mail Account" from the selection and click "Continue"

3. Enter your Name, Email Address and Password as supplied, and click on "Sign In"

@ Add a Mail account

To get started, fill out the following information:

Name:

Email Address:

Password:

4. Select "POP" from the Account Type drop-down and enter in your Incoming Mail Server and Outgoing Mail Server as provided, then click on "Sign In" (Ignore the "Unable to verify account name or password"). If your settings are correct the mailbox will be created on your Apple Mail email application

Email Address:

User Name:

Password:

Account Type:

Incoming Mail Server:

Outgoing Mail Server:

Unable to verify account name or password.

NOTE: The incoming Mail Server (for standard email accounts hosted with Adept) will be "pop3.adept.co.za"
For email accounts hosted with Adept on your own domain, please ensure you receive the details from the Adept support staff. The Outgoing Mail Server will be determined by the ISP to which you connect to receive Internet access (e.g. Vodacom, MWeb etc.)
